Grove Street Academy

COVID-19 Distance Learning

All Day Student Families will be given the option of either in-person or distance learning for the first marking period of the 2020-2021 school year. We ask that families commit fully to their choice for the full term and are welcome to reassess their decision at the end of the marking period.

Teachers will work closely with students and families to communicate assignments and expectations. Records of these contacts as well as completed work returned will serve as students' attendance records as well as the basis upon which grading will be determined for the marking period. Students who do not participate will receive a failing grade for the first marking period.

The Grove Street Academy recognizes that not all families have access to technology and our teachers are flexible in the manner of delivery of instruction. The mode of instructional delivery is determined at the discretion of each teacher. Any parent that wishes to obtain an internet-capable device for their child to use for distance learning purposes can contact their home school district of residence.
